DETAILED ACTION

The amendment filed on December 10, 2004 crossed in the mail that canceled claims 7, 8 and added the features in these claims to claims 1, 24 and 26. However, claims 7 and 8 along with the nonelected claims have been inadvertently allowed in the previous Office action. Therefore, the following Office action will be replacing the previous Office action to reflect those changes.

Allowable Subject Matter

Claims 1-6, 9-13 and 24-26 are allowed.

Statement of Reasons for Allowance

Claims 1-6, 9-13 and 24-26 are allowed because there is no prior art of record that either teaches or suggests an optical compensatory sheet having a transparent support and the following specific features recited in claims 1, 24 and 26:

An optically anisotropic layer formed from discotic liquid crystal molecules aligned in an average inclined angle of less than 5 degrees, and a second optically anisotropic layer formed from rod-like liquid crystal molecules, wherein the alignments of the discotic and rod-like liquid crystal molecules are fixed.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

This application is in condition for allowance except for the presence of claims 14-23 drawn to a non-elected species of the invention without traverse. Accordingly, claims 14-23 have been cancelled.
